

Condensed Matter National Laboratory - IPM Workshop Series

Advanced Orientation (Imaging) Microscopy

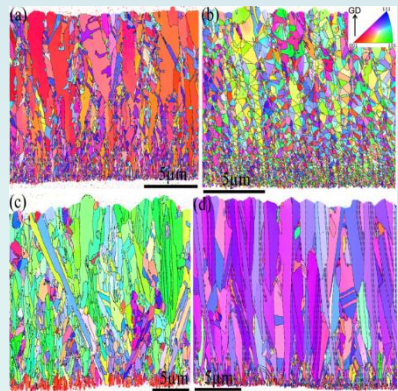

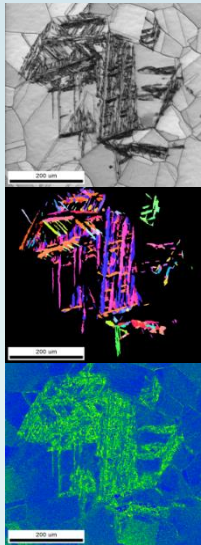

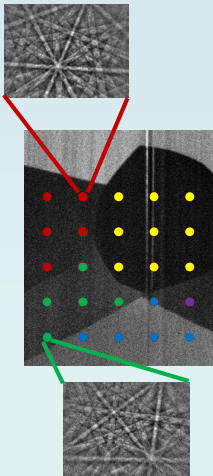

Hossein Alimadadi

Center for Electron Nanoscopy, Technical university of Denmark

Date: 10th January 2017

Topics

- Formation of Kikuchi bands in SEM
- Phase identification and microstructural characterization
- Orientation microscopy
- Complementary techniques: XRD, FIB, TEM

Venue: Farmanieh Conference Hall, Institute for Research in Fundamental Sciences (IPM)
